Second Year I Group Participants

Pre-NTI Assignment & Items to Bring to NTI

As a second year participant, your focus will be on two courses, "Designing, Developing, and Delivering Instruction" and "Introduction to Instructional Technology". During the week of NTI, you will be developing instructional material from your own teaching situation. You may want to bring any material that you might anticipate using in the development of your lesson (special tools, reference materials, lesson plans, examples, etc.) You will be presenting this lesson in class during the week. Your professional educator will let you know what day of the week to bring this material to class.

What to bring:

In order for you to arrive prepared, we have compiled a list of items that you might consider bringing.

- Laptop computer running current Windows (at least Windows 7 Professional or Home Edition or newer) with 802.11g (and 802.11b) wireless capability
- MS Office (must have Word, PowerPoint, and Excel)
- Digital Camera with cables (Optional)
- It would be very helpful to be familiar with: fundamentals of MS Word, PowerPoint, basic file operations (copying files from one storage media to another), Windows desktop and menu system, and navigating the World Wide Web

Note: Your first class will begin on Sunday at 10:00 a.m. Further details will be in the Schedule Booklet.
